

Dear FCC:

How DARE YOU??!! Don't you think that with all your ridiculous regulations and rules, that you've completely ruined terrestrial radio, and now you want us to just hand over Satellite radio to you too?

You need to REJECT NAB's petition 04-160. As a member of the broadcast radio media for over 22 years, I've seen the business become more and more corrupt and lose sight of what radio was invented for.... to INFORM and ENTERTAIN. I think it was proved in the past that "good quality radio programming" and "good commercial sales," actually CAN co-exist in a radio company.

If you want to make new rules and regulations, why not SERIOUSLY look into the activities of hte large media companies like Clear Channel. I don't even have the energy to start on them today.

Sincerely,

Andrew Cannon
